

Tourism Government — Production systems Architecture & End-to-End Request Flow

Detailed Production Blueprint: 11 Decoupled Microservices/Servers, Ports, Mapped Databases, and Technologies

SYSTEM ARCHITECTURE METADATA DIRECTORY:

- Platform Technology: Spring Boot, Spring Cloud (Gateway, Eureka Registry, Config Server), Spring Data JPA, Hibernate, MySQL, dynamic OpenFeign Clients.
- Fault Tolerance: Resilience4j sliding window circuit breakers of 10 requests, 50% failure rate threshold, and local in-memory fallback instances.
